

8-port all-optical optical switch

Preview

The Optical 8-Port Selector Switch (OSW8) maps a common optical port to any of the eight selectable optical ports. With a low insertion loss and steady switching operation, the module allows cost-effective sharing of expensive test and measurement equipment on the common port. Developed for long distance fiber installations. Equipped with eight SFP+ ports, two additional SFP28 ports and one RJ45 console port for configuration. It enables any-to-any connectivity between input and output ports via a transparent optical switch core--transmitting the original light signal without.
