

Article Overview

Africa has a growing network of fiber optic suppliers and agents, including NiaFiber, YOA Cables, Decko, and FibreAid, offering connectors, cables, and end-to-end installation services.

Key Fiber Optic Suppliers and Agents in Africa

NiaFiber specializes in a wide range of fiber optic cables, including ADSS, duct, air-blown micro, FTTH indoor/outdoor, and glass yarn armored cables. They provide high-capacity, weather-resistant solutions suitable for both urban and rural deployments, and offer customized cable solutions for businesses across Africa . YOA Cables is Africa's largest optical fiber manufacturer, known for world-class products and innovative Fast Fusion Technology (FFT) that simplifies installation and reduces accidental damage. They focus on delivering high-speed, flexible fiber solutions tailored to African market needs . Decko provides comprehensive fiber services, including engineering, design, installation, splicing, and network maintenance. They handle FTTx solutions (FTTH, FTTB, FTTD) and manage site acquisition, civil works, and wayleave permits, making them a full-service agent for telecom projects . FibreAid offers end-to-end fiber optic solutions across Africa, including South Africa, Namibia, Mozambique, Zimbabwe, Angola, Kenya, Madagascar, Ghana, and Tanzania. They provide high-quality cables, splicing tools, testing kits, and training programs certified in the UK and US, ensuring technical support and workforce development .

Supplier Directory

As of April 2026, there are 373 fiber optic product suppliers in Africa, with most being single-owner operations. Many maintain a digital presence through websites, LinkedIn, Facebook, Instagram, X (formerly Twitter), and YouTube, allowing easy contact for procurement and partnership opportunities .

Services Offered by Agents

- o Connector and Cable Supply: FTTH, FTTB, FTTD, ADSS, armored, and indoor/outdoor cables.
- o Installation & Splicing: End-to-end network deployment, including civil works and microduct installations.
- o Testing & Maintenance: OTDR testing, network optimization, and 24/7 response for transmission breaks.
- o Training & Technical Support: Certified courses for fiber network design, installation, and maintenance.

Conclusion

For businesses or telecom operators seeking fiber optic connectors and related services in Africa, NiaFiber, YOA Cables, Decko, and FibreAid are leading agents providing high-quality products, installation expertise, and technical support. Additionally, the supplier directory offers access to hundreds of other regional providers, enabling tailored solutions for specific project requirements.
