

Article Overview

Ireland offers several reliable suppliers and manufacturers of fire-resistant cable trays, including OBO Bettermann, Down To Earth Electrical, and Midland Engineering Profiles.

Key Manufacturers and Suppliers

OBO Bettermann (via Solutions.ie) OBO Bettermann provides a comprehensive range of steel cable containment systems, including fire-rated trays, baskets, and ladder systems suitable for internal and external environments. Their OBO GR-Magic(R) Tray and Basket system is designed for quick installation, robust performance, and certified earth-bonding, ensuring both safety and efficiency in fire-critical applications .

Down To Earth Electrical (DTE) DTE specializes in fire-rated ladder, tray, basket, and trunking systems. They offer prefabricated bracketry and QA-driven installation, ensuring compliance with I.S. 10101 and BS 7671 standards. Their services include fire-stopping documentation and first-time-right installation, making them suitable for mission-critical projects where fire safety and schedule adherence are essential .

Midland Engineering Profiles Midland Engineering Profiles provides modular containment systems using fire-retardant Glass Reinforced Plastic (GRP). They supply and install heavy-duty cable systems and cable trays, working with Niedax Cable Management Systems (CMS). Their solutions are designed for industrial-scale installations, offering flexibility, safety, and efficiency in fire-resistant cable management .

Additional Options

Electrical wholesalers in Ireland, such as Electrical Wholesaler Ireland, also stock durable cable trays suitable for domestic and industrial use, including fire-rated options, with competitive pricing and fast delivery . Distributors like Excel Electric may provide access to multiple brands and fire-rated products .

Considerations for Selection

- o **Material:** Steel or fire-retardant GRP depending on project requirements.
- o **Compliance:** Ensure products meet I.S. 10101, BS 7671, and relevant fire safety standards.
- o **Installation Support:** Prefabricated systems and QA-driven installation can reduce rework and ensure safety.
- o **Project Scale:** Modular systems are ideal for large industrial projects, while standard trays may suffice for smaller installations. These manufacturers and suppliers provide a range of fire-resistant cable tray solutions suitable for industrial, commercial, and safety-critical applications in Ireland, ensuring compliance, durability, and efficient installation.
