

Article Overview

Kanza Iraq, Electro Design (ED) Iraq, RAK, and Protik are leading suppliers and manufacturers of durable cable tray systems in Iraq, offering solutions suitable for industrial and commercial applications.

Key Manufacturers and Suppliers

1. Kanza Iraq Kanza Iraq provides high-quality cable tray systems designed for demanding construction and industrial projects. Their production line ensures consistent quality, timely delivery, and the ability to customize solutions according to project requirements, which may include fire-resistant or heavy-duty trays for critical installations (Kanza Iraq) . 2. Electro Design (ED) Iraq Electro Design supplies a wide range of cable management products, including cable trays, cable ladders, and electrical enclosures. Their products are suitable for industrial and infrastructure projects across Iraq, and they offer technical support for selecting appropriate systems for safety and durability, which can include fire-rated options (Electro Design Iraq) . 3. RAK RAK manufactures cable trays and ladders in various sizes and thicknesses, with a full range of accessories for secure installation. Their systems are designed for both indoor and outdoor applications, providing organized and durable support for electrical cables. Fire-resistant or heavy-duty trays can be requested for industrial projects (RAK Solutions) . 4. Protik Protik specializes in cable support systems and trays for commercial and industrial construction. Their products are made from mild steel or GI aluminum, hot-dip galvanized or pre-galvanized for strength and durability. Protik's systems comply with BS 6946:1988 standards and are suitable for supporting multiple insulated cables safely, which can include fireproof or high-temperature resistant designs (Protik) .

Additional Options

Other suppliers in Iraq provide GRP/FRP cable trays and stainless steel gratings, which are inherently fire-resistant and suitable for specialized applications. These include cable ladders, trunkings, and complete cable management systems for industrial and infrastructure projects (Cable Tray Suppliers Iraq) .

Considerations for Fireproof Cable Trays

- o Material: Steel (galvanized or stainless), aluminum, or GRP/FRP for fire resistance.
- o Standards: Look for compliance with BS 6946:1988 or equivalent fire safety standards.
- o Customization: Many manufacturers offer custom sizes, thicknesses, and coatings to meet fire safety and load-bearing requirements.
- o Installation: Ensure proper accessories and support systems are included for safe and durable installation. These manufacturers and suppliers provide reliable options for sourcing fireproof or industrial-grade cable trays in Iraq, suitable for large-scale construction, industrial, and infrastructure projects.

A cable tray is a structural system used to support and organize electrical cables in commercial, industrial, and infrastructure
