Our Muscat data center is the first in Oman--where more than half of the 21 subsea cables that connect to the GCC are strategically located in a digital ecosystem that connects over 120 cities across EMEA. Hot and cold aisle containment is one of the most effective ways to improve cooling efficiency in a data center. Optimise airflow and cooling efficiency in your datacenter with our modular cold/hot aisle containment solutions designed to. The Oman Data Center Cooling Market is expected to grow from USD 36. 32 million by 2032, at a CAGR of 14. EC fans not only reduce energy consumption but also extend component life, minimize downtime, and ensure reliable airflow in mission-critical environments. 34% annual growth through 2031, driven by 5G expansion, cloud adoption, and AI deployment across the Sultanate. Oman's data center market is experiencing a significant expansion, with a new report published on March 11.

6Wresearch actively monitors the Oman Data Center Market and publishes its comprehensive annual report, highlighting emerging

Our Cold Chain Distribution Centre, strategically located near Oman Port Sohar, offers state-of-the-art warehousing in Oman

The Oman Cold Storage Market worth USD 180 million in 2025 is growing at a CAGR of 8.75% to reach USD 270 million by 2031.

Optimise airflow and cooling efficiency in your datacenter with our modular cold/hot aisle containment solutions designed to

List of all Data Centers located in Oman. Find any certified, power consumption, cooling redundancy, services and features for data

Muscat Data Centers Our Muscat data center is the first in Oman--where more than half of the 21 subsea cables that connect to the

The increasing demand for migration to cloud platforms by various sectors attracts local and global cloud service

Muscat - The size of Oman's data centre market was valued at US\$247mn in 2022 and is expected to reach

Oman Data Center Cooling Market Overview Oman is witnessing rapid evolution as organizations seek to optimize energy efficiency,

Oman Cold Aisle Data Center

Hot/Cold Aisle Containment Optimized Airflow, Maximized Uptime Optimise airflow and cooling efficiency in your datacenter with our

Minimize your data center's footprint, establish optimal operating efficiencies and save money with cold

Colocation data centers allow companies to rent space within a data center owned by others and located off company premises, as

Oman data center landscape market investments are classified into IT, power, cooling, and general

Cold aisle containment systems Hot aisle containment cooling Network rooms and telecom facilities Edge data centers & modular IT

Oman is an emerging data center market with steady implementation of digitalization, cloud-based services, 5G, big

Learn how hot and cold aisle containment improves data center cooling efficiency, airflow control, and energy performance in Oman.
