

Price of fireproof molded cable trays in Nauru

Article Overview

Fireproof molded cable trays in Nauru typically range from \$20 to \$100 per meter depending on material, type, and supplier, with FRP and metal options available.

Overview of Fireproof Cable Trays

Fireproof cable trays are designed to protect electrical wiring from fire and environmental hazards. Common types include:

- o Ladder trays: Open-grid design for airflow and easy cable access.
- o Perforated trays: Flat or solid-bottom trays for sensitive or high-density cabling.
- o U-shaped trays: Compact design for low cable volume areas. Materials commonly used are galvanized steel, stainless steel, aluminum, and FRP (fiber-reinforced plastic). Stainless steel and FRP offer superior fire and corrosion resistance, making them suitable for tropical or humid environments like Nauru .

Fire Ratings and Standards

Fireproof trays are often tested to UL 1724 and comply with NFPA 70 (NEC) standards. FRP trays may meet NEMA standards and fire-retardant grades such as IS 6746 and ASTM-D-635 for flammability . Coatings like intumescent paints can enhance fire resistance.

Pricing Estimates

While exact Nauru pricing is not listed, international suppliers provide indicative costs:

- o FRP perforated or ladder trays: \$25-\$60 per meter depending on width (50-1000 mm) and thickness (3-5 mm) for light to medium loads .
- o Metal fireproof trays (galvanized or stainless steel): \$30-\$100 per meter depending on size, load capacity, and fireproof coating .
- o Accessories (coupler plates, hardware): \$0.50-\$2 per piece depending on tray height and size . Shipping to Nauru may add significant costs due to its remote location, so contacting suppliers for freight-inclusive quotes is recommended.

Sourcing Options

- o International suppliers: Alibaba, Ferrotech India, and Indian cable tray manufacturers offer fireproof trays suitable for export .

Price of fireproof molded cable trays in Nauru

- o Local distributors: Nauru may have limited local stock, so importing from Australia or nearby Pacific suppliers is common.
- o Customization: Many suppliers offer pre-drilled, perforated, or solid-bottom trays tailored to project specifications.

Recommendations

- o Confirm fire rating requirements for your installation in Nauru.
- o Compare FRP vs metal trays based on corrosion resistance, load, and budget.
- o Request quotes including shipping and customs to Nauru for accurate pricing.
- o Ensure compliance with local building codes and proper installation to maintain fire safety. By considering these factors, you can estimate that fireproof molded cable trays in Nauru will likely cost between \$20 and \$100 per meter, with additional costs for shipping, installation, and accessories.
