

Price per unit of fireproof cable tray channel type

Article Overview

The price of fireproof cable trays (channel type) typically ranges from \$10 to \$50 per unit, depending on material, size, and supplier.

Price Overview

Fireproof cable trays are available in materials such as galvanized steel, stainless steel, aluminum, and FRP (Fiber Reinforced Polymer), each affecting the cost. Standard channel-type trays are often priced per unit or per meter, with typical lengths around 2-3 meters. For example, bulk suppliers in China offer competitive pricing for aluminum or steel fire-resistant trays, with customization options available for OEM or ODM orders .

- o Galvanized Steel: \$15-\$35 per unit; durable and widely used in industrial and commercial projects .
- o Aluminum: \$20-\$50 per unit; lightweight, corrosion-resistant, and easier to install .
- o FRP/Composite: \$25-\$45 per unit; excellent fire and corrosion resistance, suitable for harsh environments .
- o Stainless Steel: \$30-\$50 per unit; high corrosion resistance, often used in critical infrastructure .

Factors Affecting Price

- o Material and Coating: HDG (hot-dip galvanized) or powder-coated trays cost more than pre-galvanized or uncoated steel .
- o Tray Size and Load Capacity: Wider or heavier-duty trays increase the price.
- o Fire Rating: Certified fire-resistant trays (60-120 minutes) may carry a premium .
- o Supplier and Location: Prices vary by region; Asia-Pacific suppliers, especially in China, often offer lower costs due to local manufacturing hubs .
- o Order Quantity: Bulk orders reduce per-unit cost significantly.

Practical Tips

- o Verify fire resistance certification (UL, BS, IEC) to ensure compliance.
- o Consider total cost of ownership, including shipping, installation, and maintenance.
- o Compare suppliers for quality, warranty, and after-sales support to avoid project delays. By considering these factors, you can select a fireproof channel-type cable tray that balances cost, durability, and safety for your project .

Wholesale Trough Type Fireproof Hot-Dipped Galvanized HDG Channel Cable Tray, Find Details and Price
