

Where in India can I find fiber optic patch cord manufacturers

Article Overview

India hosts a wide range of reputable fiber optic patch cord manufacturers, including Om Optel Industries, SanSo Networks, Orient Cables, STL Neox, Advance Cable Technologies, and Lumiflex.

Leading Manufacturers and Suppliers

- o Om Optel Industries Pvt. Ltd. - Established in 2015, Om Optel Industries is part of the OM Kothari Group and manufactures optical fiber cables, patch cords, HDPE pipes, and injection-molded components. The company emphasizes ISO 9000 and ISO 14000 standards and eco-friendly production practices .
- o SanSo Networks - A prominent supplier and distributor of fiber patch cords in India, SanSo Networks offers high-quality optical fiber patch cords designed for low power loss and high bandwidth, suitable for connecting optical transmitters and receivers .
- o Orient Cables - Known for manufacturing various types of networking cables, including fiber optic patch cords, Orient Cables adheres to international quality standards and provides structured cabling solutions .
- o STL Neox - Specializes in advanced telecommunications solutions, including optical fiber communications equipment and FTTx network components, ensuring fast and reliable connectivity .
- o Advance Cable Technologies Pvt. Ltd. - Offers customized cable solutions for telecom and power sectors, including optical patch cords, with a focus on quality and project-specific requirements .
- o Lumiflex - Provides high-quality optical patch cords for indoor use, connecting optical distribution frames with networking equipment. Their products comply with international standards and are available in single-mode and multimode fibers with various connector types .

Additional Information

India has a diverse network of 49 verified optical fiber patch cord suppliers, catering to both domestic and international markets. These suppliers offer a range of products including SC-LC, SC-SC, simplex, and duplex patch cords, and support multiple fiber types such as single-mode and multimode . Major manufacturing hubs include Delhi, Mumbai, and other industrial cities, where companies maintain ISO certifications and adhere to international quality standards . For businesses seeking reliable sourcing, platforms like IndiaMART, TradeIndia, and Volza provide detailed supplier directories, including contact information, shipment data, and export capabilities, enabling informed procurement decisions . These manufacturers are widely used in telecom, data centers, and enterprise networking projects, ensuring high performance, low signal loss, and compliance with global standards.

The optic fiber patch assemblies are available multi mode and single mode versions, in various lengths.
